 Chemical Resistance	ASTM D543 tested for chemical and stain (no visual effects)	YES	NO
 UV Stable	Products are UV stable which means they will not fade when exposed to sunlight	YES	NO
 Heavy Metals	Inpro material do not contain heavy metals, such as lead, which has proven to be toxic	NO	YES

○ Why Do I Need Wall Protection?

Building interiors take a lot of abuse. Don't let the wear and tear of every day traffic leave you with constant and costly maintenance. Guard your walls from scratches, dents and scrapes by installing our wall protection. We offer a wide variety of wall protection choices that are sure to give you the look you want and the protection you need.

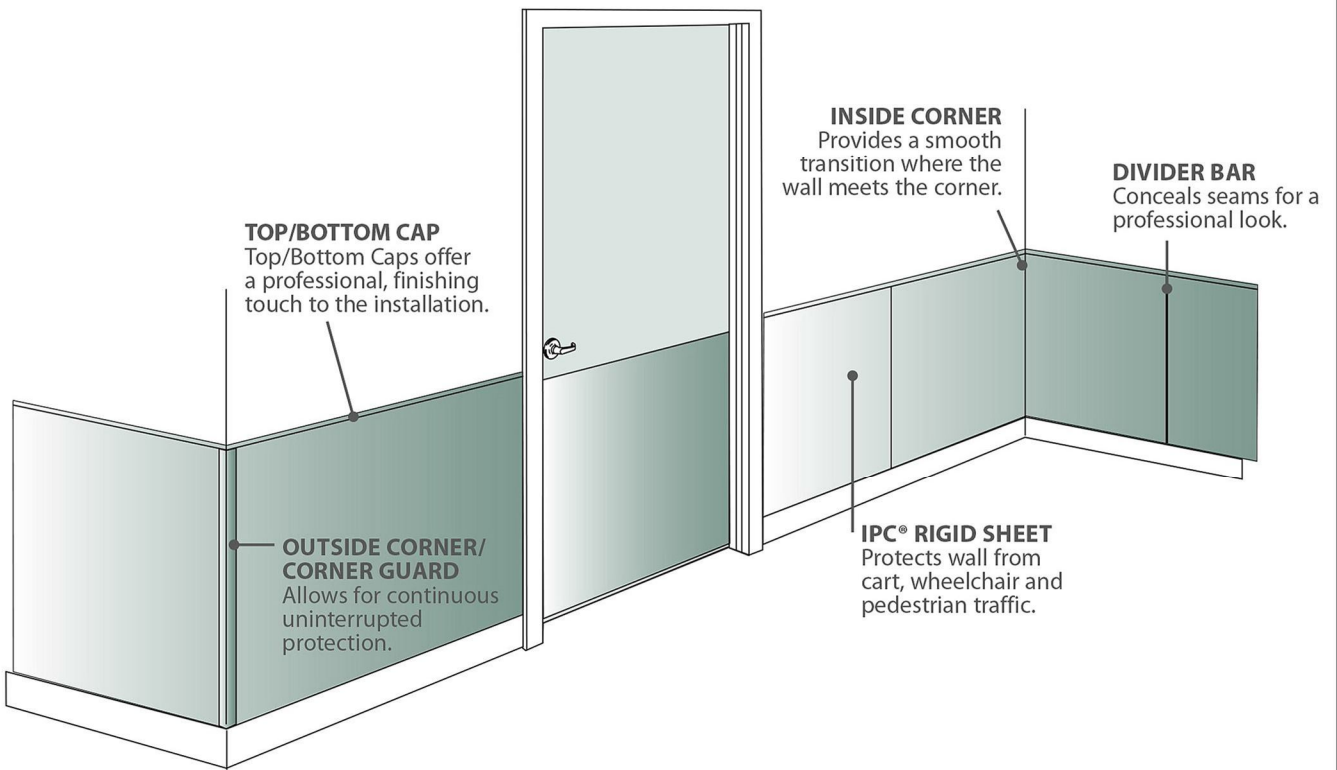

National Retail Clothing Chain
IPC® Rigid Sheet | 164 Corner Guard

IPC® Rigid Sheet

IPC Rigid Sheet provides a complete range of protection for your vertical surfaces such as walls and corners. It ensures reliable wall protection that is durable, long lasting and easy to clean. To eliminate seams in your wall, ask your sales professional about ordering your sheet in rolls.

IPC® Rigid Sheet Components

405 – 1mm Thick, 1.2M x 2.4M* (Standard size)

* The Class A Fire Rating is only applicable to our Rigid Vinyl Sheet. G2 BioBlend® Sheet has a Class B Fire Rating.

○ Handrails

Safeguard People From Slips, Falls and More.

Protect your interior walls from damage and safeguard people from slips and falls with our ADA and ANSI compliant handrails.

Anatomy of a Handrail

Aluminum Retainer & Splice provides structural stability and allows extended lengths over 304.80mm

Mounting Bracket keeps hands a safe distance from the wall.

Inside/Outside Corners provide a smooth transition for corner applications.

Cover is available in a variety of colours to coordinate with other interior finishes.

Returns finish the handrail installation for a professional look.

Add a Reveal as a decorative element, standard with every G2 BioBlend® Handrail order.

○ Handrail Selection Guide

Hallway traffic is an everyday occurrence but it doesn't have to mean costly repairs and continuous maintenance. IPC® handrails are able to withstand a wide range of impact; from back-of-house areas to an average corridor. Break the cycle of constant damage and protect your walls from future scrapes and scratches with IPC Door + Wall Protection.

However, handrails offer much more than just wall protection, they safeguard your visitors from slips and falls. Make sure your walls, visitors and facility are fully protected by selecting a handrail that has the right look and level of protection for your facility. Our handrails are available in a number of different colors which gives you design freedom within your facility.
